We have the Boone Way nailed down, now let's get the Dixie.

Join the Commercial Club and let's keep Lancaster on the map.

If you don't think The Dixie Highway will help Lancaster, get posted.

Ladies of Methodist church will serve Ice Cream, Strawberries, and Cake at Court House, May 24.

Come to the Court House on court day for Ice cream, strawberries and cake and help a good cause.

FOR SALE: Automobile in good condition. Will sell at a bargain. No use for two. Apply at this office.

Fresh home-grown Strawberries, Ice Cream and cake. Good? yes. And Methodist measure, at Court House Monday, May 24.

PREACHING AT MT. HEBRON.

Rev. J. I. Wills, of Bostville, will preach at Mt. Hebron the fifth Sunday in May. The public is cordially invited.

STRAWBERRY SUPPER.

The Ladies Aid society of the Pleasant Grove church will give a strawberry supper on Tuesday evening, May 25th, in the church yard. Admission 25 cents, everybody cordially invited.

PROLIFIC BREED.

Mr. C. A. Wearren owns a sow that is now raising twelve pigs and he informs us that within the past twelve months this sow has produced and raised twenty-nine pigs. Some sow.

STRAWBERRIES.

Have your strawberry suppers, as soon as possible. If the drouth continues, strawberries will last only a short time. Will make special prices to schools, churches and lodges.

Walton E. Moss, phone 354-F.

WILL MAKE GOOD.

The friends of Miss Carrie Reid, and there are many, will be glad to know that she has accepted a position in Mr. J. E. Dickerson's dry goods store, where she will be glad to see her friends and at the same time interest them in something they may need in this line. Mr. Dickerson has made a wise selection in securing the services of Miss Carrie and we feel certain she will make good in her new work.

THE FINEST EVER.

Mr. Walton E. Moss, who is the king of strawberry raisers in this or any other county, remembered this office with as fine a lot of this delicious fruit as we ever stuck our tooth in and we desire to express to him our thanks for his generosity.

His berries are superior this year to any he has ever grown and he is well prepared to supply your wants in this line on the shortest notice.

BIG DELEGATION.

No more enthusiastic delegation ever left a city to boost a good thing than the one that left yesterday for Chattanooga to boost the Dixie Highway for Lancaster and Garrard county. That these boys will be heard from goes without saying, for they are loaded for bear and they propose to bring the meat back with them.

They took the Cincinnati special train at Danville and the following went: J. E. Stormes, L. G. Davidson, John M. Farris, J. S. Haselden, J. L. Gill, J. W. Smith, R. L. Elkin, Joe J. Walker.

DENTISTS TO MEET.

The Kentucky State Dental Association will meet at Ashland Ky., June 8, 9, and 10, which, on account of being in the extreme North-eastern part of the State, bids fair to be the largest meeting ever held, as there will be many visitors from Ohio, Virginia and West Virginia. Kentucky has the most progressive organization of dentistry of any state south of the Ohio river, and the meeting at Ashland will be one of unusual importance as it will have a progressive clinic composed only of men of national reputation. No dentist in this state who desires to give his patients the best in dentistry can afford to miss this meeting.

LET HIM RAVE!

What are the wild waves saying, sister? And what is Shelton Sauley saying brother?

"The good roads boosters of Garrard county are understood to be making a hard fight to have the route run through Lancaster; but as the main Wilderness trail did not go through Lancaster but came direct from Crab Orchard to Stanford, thence to Danville and Harrodsburg, it is not believed that the efforts of the Garrard county men will amount to much."

No, the efforts of the Garrard county men didn't amount to much, the only thing we did was to get all the Boone Highway we wanted and what was left over we gave to Logan Ave. and Rowland.

SHOULD BE APPOINTED.

Mr. Jim Stears, one of the most popular newspaper men in the state and will become President of the Kentucky Press Association in June, is an applicant for the postmastership in his home town, Nicholasville, and should be appointed. The Kentucky Press is for him to a man and his appointment would be a popular one. Here is hoping he will land it in a walk.

NEWMAN HERE.

Commissioner of Agriculture, John W. Newman was in Lancaster last Saturday and spoke in the interest of his candidacy for the democratic nomination for Governor to a small crowd in the afternoon. Though small his audience was an appreciative one, yet we think Mr. Newman made quite a number of votes during his short stay in the city. He was accompanied by Mr. Harry McCarty and Mr. J. B. Stears, of Nicholasville, the former being his campaign manager. Mr. Newman was introduced in a very happy style by Mr. G. B. Swinebroad of this city.

FISHERMEN'S DELIGHT.

During the last two weeks more fishermen have been abroad than was ever known in this county, and many good "catches" have been reported, though we have heard of no catches of bass to any great extent. Recent rains in the upper rivers, and the nesting period being at hand having prevented the latter species from taking the hook freely. Operations have been confined for the most part to the ponds, and those who cared for this sport have been unusually successful. On last Saturday fully two hundred persons, men, women and children from all over the counties gathered at the two big ponds, the old "Nevius" pond on the farm now owned by Mrs. A. J. Caddell, and the Conn pond on the farm of Mr. Wm Ray, both on the Richmond pike, and immense strings of "bream" and an occasional "newlight" rewarded their efforts.

These people charge twenty five cents for each person fishing, and the small amount but poorly remunerates them for the tramping of their grass and the tearing down of fences and gates by the hordes of persons bent on luring the finny tribe.

A. C. LIGHTFOOT

Walking Knight of the Grip Here Monday. A. C. Lightfoot, globe trotter and walking knight of the grip was here Friday on his 12-hundred miles monthly tour for the Sher-a-Coca, a Lexington firm.

Lightfoot holds the record as the World's champion walker. In his walking tour around the world which he made in one year and 183 days, he broke the world's record as a globe trotter. He has a record of one mile in five minutes and fifty seconds. From here he went to Richmond thence to Lexington.

"THE DEEP PURPLE"

Romans Opera House Saturday Night. That Mr. Romans is pleasing the public with his pictures of the World Film Corporation is evidenced by the fact that his house is crowded whenever the wonderful pictures are being shown. The special picture, "The Deep Purple" that is billed for next Saturday night, is said to be by far the best of any of this company's films. It will be gratifying to the patrons of this house to know that Clara Kimball Young is featuring in The Deep Purple, and this fact alone should tax the capacity of his house.

"MYSTERIOUS REA NYE"

Renowned Spanish Fortune Teller and Psychic Reader at Romans Opera House Saturday and All Next Week.

The talk of Lancaster this week will be "Rea Nye" the little Spanish lady, who with her renowned fortune telling act, has mystified a greater part of the world and who will appear at Romans Opera House Saturday and all next week.

Miss Nye's act is different from anything that has ever been to Lancaster and before the week is over every man, woman and child will be talking about her and her wonderful talent. She forecasts the future of any one that desires to consult her and on Saturday afternoon May 29 will give a matinee especially for the ladies only at which time she will answer privately any question the ladies ask her. No men will be present at this time.

"Rea Nye" will not give any private readings during her stay in Lancaster but will tell your fortune free at Romans Opera House all week. She will also give "psychic readings" Saturday night and on Friday night will forecast Lancaster for the next five years.

The opportunity of seeing this renowned woman and her mysterious talent displayed may not happen again, and all who desire to enjoy the mysteries of presents, past or future explained or told should attend this performance at the Opera House Saturday night.

NEW ENEMY

To Farmer Makes Its Appearance.

The cut worm, whose activities have been rendered very active by the late cool weather, is receiving material assistance by the appearance of another worm, whose ravages are much more disastrous to the farmer than the former pest. The new worm is smaller and darker than the cut worm, but his work is none the less effective because of its size.

The latter goes about its work in a methodical and effective manner, and the result has been that in many instances entire fields of corn were devastated and replanting necessitated. A submission of a specimen of the new worm sent to the Experimental Station at Lexington brought the information that it was known as a "web worm", and suggested the use of arsenate of lead as a spray for its eradication, and when replanting became necessary, the treating of the seed to a solution of coal tar, which is peculiarly objectionable to worms and insects, and would effectively prevent their ravages.

However, their work has already been accomplished and in many instances farmers have cut up and entirely replanted their fields, and it is hoped that the appearance of warm weather will serve to eradicate these pests.

SEVERE EPIDEMIC

Of Baseball Fever Developing In County.

The usual epidemic of base ball fever has developed in the county, and the rural teams are organizing and are sending challenges to the world at large, and more especially to their old enemies in the adjoining counties. There is some splendid material in the various county teams, several of whom have been utilized to the very material assistance of the local school team, and in turn, the country boys secure the service of local riders to assist them in their Saturday afternoon battles. What a pity we cannot have some kind of a league in this part of the state to furnish food for the base ball hungry people of the section. There are more "fans" to the square inch right here in Lancaster than any place else on the globe, and yet we never have the pleasure of seeing a contest, save the creditable exhibitions occasionally staged by our school teams, or the colored team, the latter being the best in this part of the state.

It would only require the efforts upon the part of some one with sufficient interest to organize a splendid five or six club circuit in the surrounding towns, and such a league would be liberally supported and we believe given ample financial assistance to give at least one exhibition a week in every town in the league from now until snow flies. However, everyone is too deeply interested in either politics or the "Boone way" or Dixie highway to turn their attention to base ball.

DRY WEATHER

Necessarily Aids "Cut Out" Of Tobacco.

The prolonged dry weather of this spring has materially, but not intentionally aided the cut out of the tobacco crop in Garrard county, and what in early part of the year promised to be an unusually large acreage of tobacco will be of a necessity materially diminished. There is a great scarcity of plants throughout the county, in many instances beds being complete failures owing to continued dry weather, and it is only an occasional farmer who has sufficient plants to set the acreage which he had originally intended to plant. Many farmers have already planted the land in corn which he had originally intended to set in tobacco.

The blue grass seed crop, an industry which has been very prolific in this county, and very profitable to some of our farmers, will be almost a complete failure, and some of our buyers who have been accustomed to send out from ten to twenty strippers, will not take the field this season, as they claim the yield will not justify it.

Oats, also, is materially injured by the prolonged dry weather, as are timothy meadows, the latter in many instances, unless rain comes soon, bidding fair to be complete failures.

Forward wheat is looking well and bids fair to make a fairly good yield, but it is feared that the dry weather will materially curtail the yield of the late planting. Corn is looking splendid, and as yet is not suffering for rain, and aside from the ravages of "the allies", the cut worm and the web worm, both of whose ravages have been remedied by second planting, to a great extent, is by far the most promising crop of the farmers of this section.

Renewed interest has been taken on in the hemp raising industry in this county, and the acreage exceeds that of many years. Hemp seed is also coming in for considerable attention, and many farmers have in several acres, from which they expect to realize handsome profits.

Plants, Plants, Plants.

I have for sale any variety of plants at 15 and 20 cents a hundred.

Dick Williams, Route 3.

Don't you remember "CLARA KIMBALL YOUNG, the Vitagraph favorite? See her Saturday Night in "Deep Purple" a feature of World Film Co. Opera House

The first stroke of the brush will prove the superior covering [hiding] power of Kurfees Pure Lead and Zinc Paint. You will immediately appreciate the difference in spreading a paint composed of:

80% Lead and 20% Zinc

and the paint you have heretofore been using. In no other paint will you find 80% Lead; nor will you find a paint of such heavy body.

Ordinary paints do not cover like Kurfees paint, for the simple reason that they do not contain sufficient Lead to make them cover. You know a paint must contain Lead and lots of it, if you expect it to cover and wear well.

If you get Kurfees 80% Lead and 20% Zinc Paint, you don't need to buy as many gallons for the job as you would of ordinary paint, nor will you need to repaint the job so soon.

Kurfees Outside White is the whitest white; makes the whitest houses; and the colors are all good and permanent. Let us figure on your job.

We are headquarters for

HOUSE PAINT

both inside and out.

The outside White that is White.
